

PCI COMPLIANCE SERVICES

Compliance without Complexity

If your business processes, stores or transmits card holder data, keeping customer data safe is not just subject to regulatory compliance, it's good business.

At Avertium we believe that achieving Payment Card Industry Data Security Standard (PCI DSS) compliance ought to be business as usual. Our experienced Qualified Security Assessors (QSAs) work alongside customers to develop and implement year-round business processes, policies and procedures as required by the PCI DSS. The end result: A more methodical approach toward an "always compliant" state while maintaining end-customer confidence.

THE AVERTIUM DIFFERENCE

Avertium helps you carry the load by providing expert QSAs, security engineers, technical writers, and more to provide world class, competitively priced PCI compliance services.

“Every customer we deal with requires us to meet their level of security and every standard they meet. Avertium’s consultative approach to our problems was much more effective than the cookie cutter approach that other firms presented to us. We ended up with a better solution at a lower cost.”

LARRY SLAVICK, Director,
Information Technology, Guy Brown

Our customer-first consultative approach that walks you through the compliance process, helping you to understand and comply with the PCI requirements appropriate for your business:

✔ **Report on Compliance**

✔ **Attested Self-Assessment Questionnaire**

✔ **Assisted Self-Assessment Questionnaire**

Our Virtual Qualified Security Assessor (vQSA) program, a subscription-based service that empowers you to be proactive by enabling you to navigate the PCI process year-round.

Our comprehensive suite of PCI-related services to streamline your compliance process:

> **Penetration Testing**

> **Network Vulnerability Scanning**

> **Managed Security**

> **Sensitive Data Discovery Scanning**

> **Policy and Procedure Development**

> **Risk Assessment**

ABOUT AVERTIUM

Avertium is a leading provider of accessible managed security and security consulting services to the midmarket and enterprise. Founded in 2019 when leading growth equity firm Sunstone Partners acquired award-winning cybersecurity companies Terra Verde Security, TruShield and Sword & Shield Enterprise Security, Avertium’s team of highly certified security experts serves more than 1,200 customers in the retail, healthcare, hospitality, financial services, manufacturing and government sectors nationwide. Managed security services customers enjoy 24x7 monitoring from dual security operations centers located in Arizona and Tennessee.
