

HIPAA CERTIFICATION PROGRAM

MEET THE HIPAA CHALLENGE WITH YEAR-ROUND COMPLIANCE

Staying HIPAA compliant while abiding by state laws is a complex and time-consuming process, and, with a multitude of other demands on the IT organization, this annual drill can be an unwelcome disruption.

AT AVERTIUM, WE BELIEVE THERE IS A BETTER WAY.

Our HIPAA Certification Program enables all companies that process and manage patient health information to stay on top of the HIPAA Security, Privacy and Breach Notification Rules throughout the year.

Beyond conducting the initial risk assessment of technical and non-technical safeguards and developing the corresponding remediation plan, we work alongside you to translate federal and state mandates that are relevant to your business.

THE RESULT: A comprehensive, ongoing plan developed just for your organization. Quarterly updates keep you abreast of guidance from the Office of Civil Rights which administers HIPAA, HIPAA changes, the latest technology trends and industry best practices.

“ AVERTIUM HELPED US STAY ON TRACK WITH ALL OF OUR ASSESSMENTS. THE IMPORTANT PART HAS BEEN THE REGULAR TOUCH POINTS TO MAKE SURE WE ARE MAKING PROGRESS AND IT’S NOT JUST THAT WE HAVE THE ASSESSMENT AND IT’S OVER. ”

Heather Burdine, Director of Operations and HIPAA Compliance Officer, Radius
